PROJECTS

Designed and implemented a Smart Masjid using IoT technology for a university project. The project involved integrating various sensors and devices to create an intelligent and automated mosque that can adjust its operations based on the presence of worshippers, temperature, and lighting conditions.

PROGRAMMING LANGUAGES

- C++
- Python
- MatLab
- Embedded System Programming

OBJECTIVES

To obtain an Electrical Engineering internship position in a challenging and innovative environment where I can utilize my skills and gain practical experience to enhance my knowledge.

SKILLS

- Strong understanding of electrical engineering principles and concepts
- Proficient in programming languages such as MATLAB, C++, and Python
- Familiarity with electrical equipment and machinery
- Excellent problem-solving and analytical skills
- Ability to work independently or in a team environment
- Good communication and interpersonal skills

EDUCATION BACKGROUND

Bachelor of Science in Electrical Engineering from University of Engineering and Technology, Peshawar

EXPERIENCE

- Embedded System Developer
- Network and Communication
